OBJECTIVE

To search for a company where I could use and improve my skills not just on programming but also on leading or managing a team, and to explore opportunities, to excel both for my personal satisfaction and for the employer's.

QUALIFICATION

8 years of total experience in web development.

EXPERIENCE

DIGITAL PARTNERS ASIAPACIFIC, INC. (Previously Virus, Inc.)

3F Mavenu Bldg., #7844 cor Guerrero St., Makati Ave., Makati City
ASSOCIATE WEB DEVELOPMENT DIRECTOR | April 2013 –February 2017

Digital Partners Asiapacific, Inc. is one of the best companies engaged in digital campaigns of the top brands in the Philippines. All projects that we developed are for local clients.

- **Websites Development.** We develop microsites, corporate websites, and blog sites for our clients using Content Management Systems (CMS) such as Wordpress and Joomla.
- **Web Applications Development.** We develop projects from small to large scale web applications. Such projects include photo uploader, dynamic image generators, project management systems, HR tools, and customized CMS's.
- **Web API's Provision.** We had projects like mobile games and mobile apps, and we are the ones who develop web services or web API's that the game and mobile developers can call to get/save data from/to our database.
- **Facebook Applications Development.** Most of the projects we work on are web applications for product promotions. We use Php Facebook API on those projects.
- **E-commerce.** We develop e-commerce websites using Wordpress plugin called woocommerce.

- **Server Management using cPanel and some terminal commands**
- **Involved in Project Management and Timelines.**

GAMES SERVICES GROUP, INC.

Unit 1512, PSE Tower One, Ayala Triangle, Ayala Avenue, Makati City

WEBSITES AND WEB APPLICATIONS DEVELOPER | April 2009 – April 2013

Game Services Group, Inc. is a Technology company that provides game and website development services. The company also engages in full game production and publishing for social networks and mobile platforms.

- **Websites Development.** We developed websites for the company, and for local and US based clients. Most of the projects involved eLearning System.
- **Web Applications Development.** We developed projects for internal use of the company. Such projects are: Project Management System and HR Management system, e-Learning Module, Educator Survey System, and Tracking and Analytics System that the company uses for our game projects.
- **Facebook Integration.** Made the company's flash games live by integrating them to Facebook using Php Facebook API and as3 Facebook API.
- **Joomla Extensions Development.** Developed modules used on our Joomla websites.
- **Web Engineering.** Making sure that the websites run smoothly, bug-free, consistent, logically designed and that every link works before updating the client.
